

How do I use your Fruit and Vegetable Wash?

Apply a small amount directly to individual pieces of produce. For larger and harder to clean items such as grapes, broccoli, lettuce etc. simply fill up a bowl with water and add approximately 1 TBS per quart of water. Agitate the water with the produce for up to 30 seconds, apply vegetable brush if needed. Rinse thoroughly. Use a colander for delicate items such as herbs, mushrooms and berries.

For Bulk Washing

		
Mix small amount of Environné with water	Add produce and swish up to 30 seconds	Rinse thoroughly and enjoy!

For Direct Application

		
Apply a small amount directly to produce	Massage for up to 30 seconds	Rinse thoroughly and enjoy!
